

Small Flow Wrapping Machine PW-300

Small automatic bread flow wrapping machine is suitable for various kinds of regular objects, such as biscuit, pies, chocolates, bread, noodles, moon-cakes, drugs, daily appliances, paper boxes, plates etc.

Feature:

- Compact and reasonable structure, stable and advanced performance, simple and convenient operation.
- Double frequency convert control with stepless variable speed. The length of bag can be set and cut at any time, no need to adjust idle operation, just one step, and it is time saving and film saving.
- Adopt internationally famous electric components, PLC control, touch screen, with convenient and rapid setting of parameters.
- The indication for troubleshooting is clear, and it is more humanized.
- Highly sensitive photoelectric eye color code tracking, which can make the sealing and cutting position be more accurate.
- PID adjustable temperature, which is suitable for all varieties of packaging materials and enhances the quality of seal.
- Set the function of positioning power-off, without sticking to the blade and no waste of film.
- Simple and clear transmission system with more reliable work and more convenient maintenance.
- All the controls are realized through the software, which facilitate the function regulation and technology upgrade, and they can also satisfy the production demand in different periods.
- Automatic feeding of tablets, which can be applicable for automatic feeding of aluminum plastic tablets of various specifications.

Specification:

Model	PW-300
Film Width	Max. 300mm
Bag Length	30-500mm
Bag Width	30-110mm
Product Height	5-40mm
Packing Speed	5-230 packet per min
Supply Power	220V,50/60HZ,2.4Kw
Dimension	L3770xW820xH1550mm
Net Weight	900Kg
