

## *SNYG-16 Automatic Oil Filling Machine*

This linear type Automatic Oil Filling Machine is suitable for filling viscous, inviscid and corrosive liquid. It's widely applied in plant oil, chemical liquid and daily industry. This series includes rotation and linear two types, which can be chosen by customers. Filling capacity can be adjustable from 250ml to 2000ml.

### **Features:**

1. Protection device for overload clutch is set at the thumb wheel of bottle input and output. It will automatically stop and alarm if abnormal case happens.
2. With liquid crystal display, and qualify accurately. Vacuum anti-dropping device ensures no leaking situation in production.
3. It is simple and rapid for changing the varieties with unique design and superior capability. It is a set of high efficiency and intellectual oil filling machine with electro mechanical and instrumental integration controlling.

**Technical Parameters:**

<b>Model</b>	<b>SNYG-16</b>
Filling heads	16
Filling range	200ml-1L
Capacity based on 1L	4000
Voltage	380V, 50HZ, 3phase
Power	3
Accuracy	±0.5-1 depends on bottle size and shape
Filling type	Piston type, servo motor
Dimension	2400*1100*2200
Gas pressure	0.6-0.8
Suitable bottle	Diameter: Φ40mm-Φ100mm, Height: 80mm-280mm
