

Automatic Filter Bag Tea Packing Machine

Inner filter Tea Bag Packing Machine, and it could use the filter fabric to produce filter bags which have good perviousness and perspectivity. Such Sachets Packing Machine is small in size, fast in packing speed and cheap in price. When the tea bag is packaged, the finished product can be transported to the Carton Box Packer to complete the boxing. For the sanitation of tea, it is necessary to add a Metal Detector to detect metal.

Features:

1. Tea bag with the thread and label, all the works of bag making, measuring, filling, sealing, cutting and counting can be done automatically.
2. Using PID to adjust the temperature controller to make the temperature more accurate.
3. Using PLC to control the action of the whole machine and display on the man-machine interface
4. Packaging materials: tea filter paper, cotton thread and label.

APPLICATION: Tea bag packing machine is used for the packing of dust tea leaves, such as green tea, black tea, etc.

Technical Parameters:

Measuring range	3-10g (1.6-26ml)
Bag size	L: 50-80mm W: 45-80mm
Label size	L*W :20*28mm / 20*25mm / 20*20mm
Packing speed	30-60 bags/min
Dimension	900*750*1750mm
Machine weight:	350kg
Total power	AC220V/50Hz/1.6kw
Sealing Type	3 sides sealing
