

3 Side Weigher Auto Packer PW3SLW-1 Row

Feature

- As the product is measured by the load cell in the upper area, products are measured and packed it in the actual weight of 10 to 100g (optional). It is a machine designed for multiple types in mass production.
- A variety of length can be changed without changing part.
- It causes less error, and is very easy to operate and use.
- A flashing light is turned on 2 minutes before the film is finished. When the films are completely consumed, the machine will stop at its designated position.
- Ink Jet Printer and Thermal Carbon Paper Printer can be installed for the Sealing Device.
