

KV-350WZ Reciprocating Type Horizontal Packing Machine

Features

- PLC controlling system, intelligent control, self-correction, operate more steadily.
- Using PID temperature controller, make heat balance better.
- The working platform is made of 304 stainless steel to ensure the safety of product packaging.
- High precision of bag making, error is less than 0.5mm.
- We can provide customers with pillow-shaped bags, hanging hole bags, gusseted bags, and even bags, etc.

Application & Bag Type

Application: suitable for packaging soft and variable, a large number, sticky, slender strips of products, such as biscuits, medical masks, disposable tableware, disposable slippers, medical cotton swabs, disposable gloves, crushed ice, vegetables, fruits, noodles, etc.

Technical Parameters:

Model	KV-350WZ	KV-450WZ
Film Width	Max.350mm	Max.450mm
Bag Width	30-130mm	50-160m
Bag Length	110-330mm	120-450mm
Product Height	10-60mm	10-80mm
Film Roll Diameter	Max.320mm	
Packing Speed	30-120bags/min	30-100bags/min
Power	220V, 50/60Hz, 2.4kVA	220V, 50/60Hz, 3.2kVA
Machine Size	(L)3670×(W)820×(H)1410mm	(L)3980×(W)860×(H)1530mm
Machine Weight	800kg	960kg
Optional Device	Date Coder/Air-filling Device/Punching Device	
Machine Wrapping	Standard Export Wooden Case
