

Automatic Ketchup Sauce Filling Machine

Our Automatic ketchup sauce Filling Machine, tomato sauce filler is one type of volumetric piston filling machine it is designed and manufacturing specially for wasabi sauce.

The RX-VF Automatic olibanum oil Filling Machine is manufactured with a FOOD grade 304SS frame and is capable of supporting 2 to 20 fill nozzles to meet customer capacity need, max speed can reach 5,000bottles per hour for 5 liters bottle, it is PLC Controls, touch screen operation, 304SS or 316SS contact parts, stainless steel and anodized aluminum construction, plus many more features come standard.

Main Features

- 304 Stainless steel construction and the liquid contact parts are 316L stainless steel
- Schneider PLC and touch screen control
- The olive oil filling machine is Servo motor Driven, one servo motor drive one piston or one servo motor driven more nozzles, high speed and high accuracy.
- Accurate filling volume, within $\pm 0.5-1\%$
- No bottle, no fill, automatic warning on errors
- The filling blocked nozzles are anti drops, silk, and auto cut viscous liquid
- Easy to maintain, no special tools are required.
- Diving nozzles for bottom up filling of foaming products if need
- Bottle mouth can be located if need
- The sauce filling machine adapts level control system on top liquid tank.

Technical Parameters

Speed	10-100bottles/min
No. of Filling Nozzles	2-20filling nozzles
Filling Range	500-5000ml
Measurement Precision	±0.5-0.8%
Working Power	220VAC 50/60hz
Air Pressure	4~6kg/cm ²
Air Consumption	1m ³ /min
Power Rate	0.8KW
Servo Motor	2KW
Net Weight	450KG
