

Blowing Filling Capping Machine XLBFC8-150

This 12000BPH Blowing Filling Capping Machine's operating interface is simple and easy to understand, and you can switch between multiple languages. It is equipped with an ion precipitator to improve the cleanliness of the packaging container. Multi-layer heating device makes heating more even. The production process is stable and no noise. In addition, it has low production cost and long service life.

Technology Specification

- Model Number: XLBFC8-150
- Capacity: 15000-18000B/H
- Filling precision: 5mm
- Bottle diameter: 50-120mm
- Bottle height: 150-320mm
- Dimension (L*W*H): 8200x2620x2400mm
- Weight: 3420KG
