

## *Small Packing Machine for Food Products*

The small packing machine is suitable for tea, powder, granule, parts etc. automatically packing.

With the micro-computer control system, the bag packaging machine can adjust the heating temperature, set the bag length and run the film automatically. The weight filling machine works together with the bag forming machine, which speed up the packaging, labor saving.

### **Technical Parameters:**

Operating Voltage	220V/50HZ;110V/60HZ
Rated power	360W
Packing speed	15-25pcs/min(customizable)
Weighing range	1-50g(customizable)
Tolerance scope	about 0.1-0.2g(customizable)
Body material	Quality food grade stainless steel
Physical dimension	45*58*160cm
Total Weight	65kg
