Vertical Form Filling Sealing Automatic Packing Machine GT-PM-G-300

Vertical form filling sealing automatic packing machine is a whole packing line machine which combine the function of feeding conveying, automatic volumetric method measuring, filling, pouch bag forming making, sealing and cutting. The main part is the cup filler and packing machine, can complete the packing processing in short time and with high efficiency.

Application:

This sachet salt packing machine can pack various kinds of granule, such as sugar, coffee, candy, small, biscuits, beans, peanuts, sesame seeds, potato chips, potato chips, monosodium, salt, rice, desiccant, pesticide granules, chemicals granules, other materials very suitable for granule packing machine for fast packaging. It can be used in many food processing enterprise.

Feature:

1. Efficient: Bag – making, filling, sealing, cutting, heating, date / lot number achieved in one time;
2. Intelligent: Packing speed and bag length can be set through the screen without part changes;
3. Profession: Independent temperature controller with heat balance enables different packing materials;
4. Characteristic: Automatic stop function, with safe operation and saving the film;
5. Convenient: Low loss, labor saving, easy for operation and maintenance.
6. All machine made of stainless steel 304 material, durable and easy for user to clean and maintain.

Parameters:

Model	GT-PM-G-300
Packing film width	50-300mm
Finished pouch size	Length: 40-150mm Width: 25mm-80mm
Filling capacity	5g – 200g
Filling speed	20-80 bags/min
Power supply	750W, AC220V, 50Hz
Machine weight	320kg
