

Automatic Form Liquid Filling Machine

The number of filling valves is 4, which is suitable for filling all kinds of sauces (such as tomato sauce, chili sauce, rice wine with rice grains, orange grains, various fruit jams, fruit purees, etc.), viscous materials, high concentration and containing Quantitative filling of pulp or pellet beverages, even pure liquids.

Descriptions:

500ml 1L Automatic Form Liquid Filling Machine Stable operation, accurate filling, suitable for cold and hot filling. Pistons and piston cylinders are specially processed by cutting-edge technology, matched with precision, and are durable and wear-resistant. Equipped with a material mixing system, three-point liquid level control, frequency conversion speed regulation, bottle in and out protection, automatic adjustment of high and low speed, bottle filling and many other automatic control designs. It is made of high-quality stainless steel N304, which meets the requirements of food hygiene and has a beautiful appearance.

Technical Parameters:

Voltage	220V/50HZ
Dimension(L*W*H)	2000*900*2100mm(L*W*H)
Weight	250Kg
Filling range	3-10g
Production capacity	1200 cups/h
Air source	0.6-0.8Mpa
Packaging speed	900-1200cups/hour
