

Link-420CZ-10 Automatic Potato Chips Weighing Packing Machine

Performance and features

1. Imported PLC full computer control system, man-machine interface, touch screen easy to operate, intuitive;
2. The same delivery film system, accurate positioning, excellent machine performance, beautiful packaging;
3. Perfect automatic alarm protection function, reduce the loss to Z low;
4. The machine can automatically complete the whole packing process of measuring, feeding, bag-filling and date printing when matched with metering device;
5. Bag making form: the machine can be made into pillow bags and vertical bags according to customer needs. Drill hanging hole tape.

Technical Parameters:

Model	Link-420CZ-10
Blanking way	ten combined electronic scale
Bag type	Back seal pillow bag
Measuring range	10-2500 g
Precision	0.5-5 g
The bag size	L:150-380 – mm, W:140-270 – mm
Packing speed	50 bags/min
Control mode	PLC control system + Touch screen in English and Chinese
Air supply	0.4cbm/min, 5-8KGF/m ²
Power	2 KW
Power supply	380 v, 60 hz
Chassis appearance	Stainless steel
Gross weight	800KG
Size	L2200 * W 2350 * H 3000 mm
