

## *XFF-L Automatic Vertical Powder Packing Machine*

This machine can do the work of bag-making, weighting, filling, filling the nitrogen, date coding, and bag-cutting. It is suitable for packing powder and granule material such as milk tea, monosodium glutamate, solid beverage, sugar, grape sugar, coffee, feedstuff, solid medicine, powder type additive, and dye, etc.

### **Main performance and functional characteristics:**

1. Equipped with safety protection, comply with firm's safety management requirements.
2. Use intelligent temperature controller to have accurate temperature, which ensures the artistic and neat seal.
3. Use PLC Servo System and pneumatic control system and super touch screen to compose the drive control center, which improve the whole machine's control precision, reliability and intelligent level.
4. Touch screen can store the technical parameters of various kinds of products, it is unnecessary to reset while products changing.
5. With error indicating system, which help to handle the trouble immediately.
6. Make pillow bags and hanging bags in terms of customers' different requirements.

## Technical Parameter

Measure method	Auger dosing	Weighing feedback tracking
Bag-making size	(W)70-200mm (L)100-300mm	(W)100-250mm (L)100-350mm
Filling weight	10-5000g	10-5000g
Packaging precision	≤1%	
Packaging speed	25-60bag /min	
Power supply	Three phase 380/220V 50-60 Hz	
Power	6 kw	
Pressure	6-8 kg/cm <sup>2</sup>	
Use tolerance	0.2m <sup>3</sup> /min	
Weight	700kg	950Kg
Dimension	1300×1500×2600mm
