

HZGG1000-4 Auto Double Heads Paste Filling Machine

Automatic paste filling machine is made with electric, mechanical and pneumatic principle. Use counter to control the filling column and designed with Special filling nozzle to reduce bubble when filling.

Automatic paste filling machine is widely used in a variety of semi-fluid, paste, thick body, thick sauce, sauces and a variety of materials containing the filling of granules. Such as syrup, pulp drinks, honey, sesame, tomato sauce, jam, peanut butter, chili sauce and a variety of paste filling.

We can accord to customer's requirements to design the filling volume.

Features:

1. Can customize products according to customer bottle samples.
2. Adopted piston quantitative, mechanical and electrical, pneumatic in one, electrical and pneumatic components used well-known brands.
3. Screen rational design, simple operation.
4. Compact structure, beautiful appearance, with stable and reliable performance, easy maintenance.
5. Filling accuracy, adaptability.

Parameter:

Model	HZGG1000-4
Voltage	AC220V
Power	0.8KW
Filling range	50-100ml/100-300ml/300-1000ml/1000-5000ml (can select)
Production speed	10 pcs/min
Air pressure	0.4-0.6mpa
Suit bottleneck diameter	≥50mm
Filling heads	2 (2/4/6/8) can select
Machine size	1000*1500*2200mm
Note : Contact with the materials are made of 304 stainless steel
