

ZM10D25 Multi Head Packing Machine

The ZM10D25 Multi Head Packing Machine is a cutting-edge technology of packaging machine. This machine is designed to automate the packing process and has multiple heads that can operate concurrently leading to increased efficiency and productivity. It provides solutions to different packaging requirements such as food, pharmaceuticals, hardware, and cosmetics among others. This ZM10D25's work involves numerous intricate packing processes.

Technical Parameters

Model	ZM10D25
Type	Multi-Head Packing Machine
Number of Heads	10
Packaging Speed	Up to 25 packs per minute
Bag Width Range	80mm – 200mm (adjustable)
Bag Length Range	80mm – 300mm (adjustable)
Bag Type	Pillow bag, Gusset bag, Quad seal bag, etc.
Film Material	Laminated film, PE film, etc.
Control System	PLC control with touchscreen interface
Power Supply	220V, 50/60Hz, 3 Phase
Power Consumption	5KW
Air Pressure	0.6MPa
Air Consumption	0.5m ³ /min
Machine Dimensions	2000mm x 1350mm x 2150mm (L x W x H)
Machine Weight	Approximately 1000kg
Optional Features	Date coder, Gas flushing system, Metal detector, etc.
