

Two in One Filling Machine for Gas Containing Cans XM 12-4/18-4/24-6

This series of two in one filling machine is used for the production of carbonated beverage, such as Coca Cola, Fanta, Sprite and gas bearing mineral water.

The design of the two in one filling machine is scientific and reasonable, beautiful in appearance, convenient in maintenance, fast and labor-saving. The host adopts advanced PLC programmable automatic control technology, and the key electrical components are products of international well-known merchants.

Technical Parameters:

model	yield	power	size	weight
XM 12-4	4000 to 6000 cans / h	8 Kw	2100x1700x2300mm	2500 Kg
XM 18-4	8000 to 15000 cans / h	9 Kw	2300x1900x2300mm	3200 Kg
XM 24-6	18000 to 25000 cans / h	11 Kw	2600x2100x2300mm	4000 Kg
