

DPP-120H Multi-Function Blister and Alu (Alu and Alu) Packing Machine

DPP-120H multifunctional automatic aluminum (aluminum) bubble cap packing machine, the machine is the company comprehensive domestic and foreign aluminum plastic packaging machine has the advantages of innovative design, the contact part of the drug and by stainless steel and high grade aluminum alloy materials production, applicable to the pharmaceutical, food, health care products packaging industry plain tablets, sugar coated tablets, capsules, can be packaged tomato sauce, chocolate sauce, honey and so on

The machine is China pharmaceutical packaging technology improvement and implementation of GMP production equipment, the product has been sold to domestic and foreign pharmaceutical companies and large and medium-sized hospitals, and exported to more than 20 countries and regions, favored by customers and praise.

Performance characteristics

1. Frequency conversion stepless speed regulation, mechanical traction
2. Adjustable stroke, adjustable range of 30-100mm, convenient adjustment, accurate synchronization
3. Standard is equipped with four stations (molding, heat sealing, indentation, punching and cutting) and each station to install four posts, the adjustment is more convenient, stable operation;
4. The use of plate mold, positive pressure molding, batch number, indentation tangent, aluminum foil / aluminum automatic discharge;
5. The configuration of a set of universal feeder, the filling rate is as high as 99.5%;
6. The machine has the advantages of small size, light weight, adjustment and maintenance space, etc.

Technical Parameters

PROJECT	PARAMETERS
Cutting Ffrequency	Al-plastic:10-40Times/min
	Al-Al:10-30Times/min
Travel Range	30-100mm (Adjustable)
Max forming area	120×90mm
Max Forming Depth	20mm (customized according to customer requirements)
Main motor power	0.75kw
Upper heating power	0. 5kw
Lower heating power	0. 5kw
Heat sealing heating power	0. 5kw
Air volume flow	≥0.2m ² /min
Air pump pressure	0.4-0.6Mpa
PVC	0.25-0.5×130mm
PTP	0.02-0.035×130mm
Dialysis paper	50-100g×130mm
Overall dimensions	2070×650×1060 mm
Weight	About560k
