

Automatic Vacuum Bag Packing Machine

Automatic Vacuum Bag Packing Machine is automatically seal products in vacuum bags, removing air to maintain quality. Featuring an intuitive user interface, customizable settings, and high-speed operation, they cater to a wide range of packaging needs, from food items to pharmaceuticals. Constructed with robust materials for durability and reliability, they ensure consistent performance with minimal maintenance.

Advantage:

1. Low price, high speed, high efficiency.
2. PLC control system, big touch screen easy to operate.
3. Pneumatic servo control system, accurate positioning, excellent overall performance.
4. Maximize the reliability and intelligence of the whole machine.
5. This machine can automatically complete the whole process of feeding, bag making, filling, bag making, date printing, vacuum and finished product output.
6. Bag form: This machine can be made into pillow shaped bags and vertical bags according to customer needs.

Technical Parameters:

Model	Automatic Vacuum Bag Packing Machines
Speed	5-15 bags/minute
Film Width	200-420mm
Bag Width	50-120mm
Bag Length	50-200mm
Bag Side Width	40-80mm
Voltage	2.2KW, 220V 50Hz
Air Consumption	0.8MPa
Dimensions	L1180*1950*2900mm
