

CXM-GDJ Auto Premade Bag Packaging Machine

1. The whole machine has an eight-station structure, and its operation is centrally controlled by a programmable controller (with motion function) PLC and a large touch screen. The operation is simple and convenient.
2. Equipped with automatic fault tracking and alarm system, the operating status can be displayed in real time.
3. Empty bag tracking and detection device to achieve no bag opening, no filling and no sealing.
4. The action execution adopts a full servo control system, which makes the execution reliable, fast and accurate.
5. The whole machine design complies with GMP standards and has passed CE certification.

Technical specifications:

Item	Remark
Speed	30-40bags/min (depends on material mobility and the bag design)
Bag size	L≤380mm, W 55-120mm
Bag style	Flat bags, stand-up bags, zipper bags, handbags, M bags, etc.
Air source	6kg/cm ² , 0.4m ³ /min
Packaging material	Single layer PE, PE composite film, paper film and other various composite films
Weight	700KG
Dimensions	700×1140×1470mm
Voltage	380V
Power	7KW
