

SPR-1 Automatic Capsule Filling Machine

SPR-1 Automatic Capsule Filling Machine. It adopts multi-bore dosing, intermittent motion and frequency control. It is suitable for automatically completing capsule feeding, separating, filling, (waste capsule rejecting), closing, finished product ejecting for powder or micro pill medicine in capsule. Its characteristics are advanced structure, the newest closed ten position rotating table, high precision, and low noise and best suitable for domestic machine-made capsule, and soon the key parts of the bearing and electrical equipment adopts international famous brand, performance stability and can be run at a high speed. All parts contacting the medicine powder are made of quality stainless steel, provide dust collector device and made according to GMP standard.

Technical Parameters:

Model	SPR-1
Production Capacity	200 pcs/min
No. Of Segment Bores	2
Application Capsule Size	00#-4#
Power	380V/50Hz/3Kw
Packing Size	720×820×1720 mm
Packing Weight	650 Kg
