

## ***LFF-ZWS-008 Automatic Paste Aluminium Tube Filling And Sealing Machine With Dust Cover***

The automatic aluminum tube filling machine is suitable for paste materials, ointment, adhesive, AB glue, epoxy glue, skin cream, hair dye, shoe polish, toothpaste and other liquid. The outrigger mechanism of the machine is made of aluminum alloy and stainless steel, equipped with dust cover.

### **Features:**

1. Compact design and auto tube feed. Driving part fully-closed.
2. All conducted by a fully auto control system.
3. Tube washing and feeding conducted pneumatically, accurate and reliable.
4. Auto picketage affected by photoelectric inductance.
5. Easy adjustment and dismantling.
6. With easy and quick adjustment, it is suitable for using multiple kinds of soft tubes for filling.
7. The part contacting materials is made of 316L stainless steel, clean, sanitary and conforming to CMP for medicine manufacture.
8. With safety device, the machine is shut down when the door is opened and filling carried out only with tubes fed. Overload protection provided.

**Specification:**

Model	LFF-ZWS-008
Tube material	Aluminum / Metal tube
Tube diameter	φ15—φ70
Tube length	50—180 (customizable)
Filling volume	40—60ml/pcs (adjustable)
Filling accuracy	≤±1%
Product capacity	3600—43600 pcs/h (adjustable)
Working pressure	0.55—0.65Mpa
Motor power	2KW (380V/220V 50Hz/60Hz, three phase)
Working Position	10Automatic Aluminum Tube Filling And Sealing Machine with Cover Pcs
