## *WF Series Foot Type for Powder-Single Side*

WU-HSING's brand Foot type Impulse sealers (WF) are made of Alum. housing with powder coating. Impulse sealing with Timer control (0-2 sec.) , Congealing time is necessary for perfect sealing. This unit is ideal for frozen, seafood, salt, powder products. Equipped a plug in Timer set (2's) to avoid powder, water to damage the control system. Single sealing is ideal for PE, PP, most of plastic materials. Sealing for leak-proof and moisture-proof to protect products.

By foot operated is easier for user to operate machine by foot while 2 hands hold the bags well operated to make an excellent and perfect sealing.

**Sealing width: 2.7mm, 5.0mm (0.8mm round wire for sealing & melting)**

**Sealing time: 0- 2 sec.**

**Congealing time: accordance with the Timer setting.**

**Optional: Stainless housing (SUS#304), 10mm sealing width, Date Imprinter.**

**Related sealer: WN series for solid and dry products...**

**WN-T series for various or thicker bags. Good at gusset bag (4 layers)**

**W-D Direct Heat sealer for Nylon, Alum., ...**

**Applications: food, electronics, chemicals, pharmaceutical, and hardware components industries**

## Specification

Specification	WF-600	WF-450	WF-300
Voltage	110V/220V/230V/240V		
Power (Watt.)	-	600W	450W
Power(Watt.)	800W	-	-
Max. sealing	-	450*2.7/5mm	300*2.7/5mm
Max. Sealing	600*2.7/5mm	-	-
Heating Time	0-2 sec.		
Max. Temp	250°C		
Dimension	68*40*90cm	54*35*90cm	38*35*90cm
Weight	22KGS	18KG	16KG
