

DZQ-1000/2SA High Quality Frozen Double Chamber Vacuum Packing Machine

The DZQ-1000/2SA FLAT is a large vacuum packaging machine with double chambers, which is more efficient. A larger vacuum chamber and a more powerful vacuum pump enable this machine to have better vacuum effect and vacuum efficiency. It is highly suitable for the food packaging production chain, similar to meat, sheep leg, pork, fish packaging.

Product Description

Advantage

- This vacuum sealer has four 1000mm sealing bar.
- Double chamber operation enables vacuum packaging in one chamber while product placement is carried out in the other, significantly enhancing work efficiency.
- The FLAT style features a flat chamber for easy cleaning. The upgraded sealing bar makes it convenient to replace the vulnerable parts.
- Vacuum pumps with a capacity of 100m³ to 400m³ can be customized according to the guests' needs.
- This vacuum packing machine is made entirely of stainless steel. It uses waterproof PCB plastic boards and is equipped with an independent electrical box for convenient cleaning and maintenance of the machine.
- The vacuum packing machine offers high customization, meeting various customer-specific requirements.

Technical Parameters

Model	DZQ-1000/2SA FLAT
Voltage	3phase 220/380V 50-60Hz
Pump Power	4kw
Pump Capacity	200m ³ /h /Option
Sealing Length	1000mm (x4)
Sealing Width	10mm
Cover Size	1200x880x210mm
Dimension	2360x990x1115mm
Weight	≈625kgs
Certification	CE ISO
