

JG-8HS Fully Automatic Servo Filling Machine (eight heads)

This machine is suitable for filling all kinds of liquid washing liquid, such as nursing liquid, oral liquid, hair care liquid, hand washing liquid, skin care liquid, disinfectant, liquid foundation, antifreeze, shampoo, eye wash liquid, nutrient liquid, injection, pesticide, medicine, cleaning, shower gel, perfume, edible oil, lubricating oil and liquid filling for special industries

Machine features:

1. The equipment adopts servo drive
2. The adjustment of filling volume can be directly set on the touch screen
3. The machine is made of high-quality stainless steel material, which meets GMP requirements
4. Imported accessories for the overall pneumatic components of the machine, PLC control using Mitsubishi from Japan, touch screen operation settings
5. The sealing components are made of silicone rubber (wear-resistant, high-temperature resistant, acid alkali resistant, corrosion-resistant) and fluororubber (wear-resistant, strong acid alkali resistant, strong corrosive)
6. The linear filling machine is designed with reference to similar advanced foreign brand machines and enhances some additional functions. Make the product simpler and more convenient in terms of operation, precision error, installation adjustment, equipment cleaning, maintenance, and other aspects.

Technical Parameter

Model	JG-2HS	JG-4HS	JG-6HS	JG-8HS	JG-10HS	JG-12HS
Filling nozzle	2 nozzles	4 nozzles	6 nozzles	8 nozzles	10 nozzles	12 nozzles
Filling Speed:	5-15	8-24	12-36	16-48	20-55	24-60
	per/min	per/min	per/min	per/min	per/min	per/min
Filling scope	50~500ml, 100-1000ml, 500-5000ml					
Power Supply:	220/380V 50Hz					
Power:	≥ 2KW					
Filling Precision:	±2-5ml ≤2% standard filling dosage					
Machine Size:	L2000 × W1200 × H2100mm					
Air pressure:	≤0.6~0.7Mpa					
Air consumption :	2-10M ³ /Hr
