

13030SBF+BSE-15040A Automatic Window Shrink Packing Machine

This Automatic window shrink packing machine is widely in wooden door, glass plank etc. The Automatic window shrink packing machine with large power transmission electrical machine so that improve carrying capacity. Automatic window shrink packing machine adopts several circulation fan so make the shrink room uniformity and enough circulation heating This machine with carrier around without power and easy to operate.

Technical parameter

Model	13030SBF	BSE-15040A
Power	6KW	30KW
Packing size	60mm≤W+H≤1250mm	2500*1000250mm
	L unlimited	
	H≤300mm	
Furnace size	/	3000*1500*400mm
Voltage	110-220v 50-60Hz	380/220v 50-60GHz
Horizontal cutter size	1300mm	/
Air temp range	300℃	300℃
Work table height	825	825
Packing speed	15m/min	0-18m/min
Air supply	6-8kg/cm2	/
Suitable film	PE	PE
Machine size	2380*1800*1780mm	5000*1850*1850
Packing size	2430*1850*1930mm	5050*1900*2000mm
Weight	1600/1500kg	1950/1800kg
