

QCFP Series Pneumatic Bottle Filling and Sealing Machine

Suitable for filling and sealing plastic bottle which can be container of drink, yogurt, milk, and so on. And it can automatically do adjust the bottle, filling, light sensor, sealing, printing date, cutting and discharging, this machine is made of steel stainless steel with easy equipment, it is easy to operate. We can make the machine according to customers' requirements.

Technical Parameters

Model	QCFP-8	QCFP-12
Packaging speed	6720-8640 pcs/h	10080-12960 pcs/h
Filling content	0-350ml	0-350ml
Voltage	3-phase 4-line	3-phase 4-line
	Socket (380V 50HZ)	Socket (380V 50HZ
Electric motor power	0.75KW	0.75KW
Heat up power	4.5KW	5KW
Air pressure	0.5MPa-0.75MPa	0.5MPa-0.75MPa
Maximum air consumption	0.45m ³ /m	0.45m ³ /m
Size(L*W*H)	4000*700*1700mm	4000*800*1700mm
Weight	About1000kg	About1200kg
