

SED-JB800 Compact Type Thin Film Coating Machine Auto Coater Tablet Coating Machine

Our JB800 sugar coating machine is used for tablets and pills in the pharmaceutical and food industries.

The JB800 icing machine is also used for rolling and heating beans and eating nuts or seeds.

As its function. Raise the icing pan to 30°. Heater such as gas or electric heater can be placed directly under the pan.

The machine is equipped with a separate blower with an electric heater. The duct of the blower is extended into the pot for heating or cooling purposes.

Use of Coating Machine

This machine is widely used in the coating, glazing and granulation of the pharmacy trade. It also can be used to ball object mould shape make in foodstuff and chemical industries.

Trait of Coating Machine

1. This coating pot is made of stainless steel, meet the GMP standard.
2. Transmission steady, performance reliable.
3. Convenient to wash and maintain.
4. High thermal efficiency.
5. It can produce the technological requirement and regulate coating in one pot of angle

Product Parameters

Model	SED-JB800	SED-JB1000
Dia. of Pan (mm)	800	1000
Rotary Speed of Pan (r/min)	36	32
Power of Fan(kw)	0.12	0.12
Power of Heat kw	2	2
Production Capacity(kg/time)	36-50	45-70
Motor(kw)	1.1	1.1
Overall Size (mm)	1000*800*1480	1070*1000*1580
Net Weight(kg)	205	230
