GRT-350 Inside Pumping Vacuum Packing Machine

Inside Pumping Vacuum Packing Machine

Features:

1. Computer control panel, there are several control ways for your selection.
2. Strict quality inspection system, ensures the stable operation of vacuum pump.
3. Special vacuum cover labor hinge device, reduces the labor intensity of workers.
4. Unique shock absorber design of the vacuum pump motor, ensures low noise.
5. 304 stainless steel material, has antiseptic effect.
6. V type vacuum chamber seal, long service life.

Technical parameters:

Model:	GRT-350
Machine size (mm):	560 x 425 x 460
Vacuum chamber size (mm):	450 x 370 x 170
Heat sealing effective size (mm):	350 * 8
Vacuum pump (m3/h):	20
Motor power (kw):	0.9
Voltage (V):	220
Frequency (Hz):	50/60
The working cycle (times/min):	1-2
Gross weight (kg):	73
Net weight (kg):	62
Carton size (mm):	670
