

DZP-400ST Soft Bag (Plastic Bottled) Intravenous Bag Packing Machine

Haichina Machinery Co.,Ltd is one of the best DZP-400ST soft bag (plastic bottled) intravenous bag packing machine manufacturers and suppliers in China, equipped with productive factory, welcome to buy discount and high-quality DZP-400ST soft bag (plastic bottled) intravenous bag packing machine products from us and check the price with us.

DZP-400ST Bag Packing Machine or Flow Pack Machine is a packaging machine, that suit to outside package of soft bag and plastic bottle. Automatic labeling and coding can be available. Flows Pack Machine can carry out non-attended linkage production through combining the large transfusion production line, which reduces labor intensity, enhances production efficiency and improve automatic degree.

Main Features of Flow pack machine:

1. Double frequency inverter control with steeples variable speed.
2. Just in one step, the length of bag can be set and cut at any time without the need to adjust trail operation, and it time saving and film saving.
3. It adopts international famous electric components, PLC control, friendly interface, with convenient and rapid setting of parameters.
4. The indication of fault is clear, and the function is more humanized.
5. Highly sensitive electric-eye color code tracking can make the sealing position be more accurate.
6. The accurate temperature setting is suitable for various of packaging material and improve the quality of seal.
7. It has functions of positioning power-off, without sticking to the blade and without waste of film.
8. Simple and clear driving system with more reliable work and more reliable work and more convenient maintenance.
9. The controls are operated on software, which facilitates the function regulation and technology upgrade so as to satisfy the production requirement.
10. It can be set the labeling device for automatic production.
11. The machine can be combined with the soft bag production line, not required manual adjustment.

Main Technical Parameters of Flow Pack Machine

Model	DZP-400ST
Packing capacity	30-230 packs/min
Packaging size (mm)	L(120-380)*W(30-180)*H(5-80)
Max. width of film	400 mm
Power supply	AC220V 50Hz, 3KW
Weight	800 kg
Overall dimension (L*W*H, mm)	4000*800*1550 mm
