

SAMBAX - Unique and Universal Monoblock

Built on decades of industry experience supporting the pharma and cosmetics manufacturing sectors with our in-line downstream packaging solutions, Shemesh Automation have now brought together all our proven technologies for the first time in a single application dedicated to the pharma and cosmetics sector .

The Sambax is a unique and truly universal monoblock design that draws on our considerable expertise in high throughput production.

Through a process of continual evolution and constant dialogue with our customers the Sambax offers significant productivity enhancements that will benefit manufacturers and boost efficiency and with a ROI (return on investment) that already justifies itself comparing to most machines in the market.

BENEFITS

- Auto-feed, Fill, cap/double cap and labeling for vials and other pharmaceutical/cosmetics products- in one block.
- Top Israeli engineering. Bright team of engineers with over 100 years of combined experience.
- Advanced QC.
- Fully Automated System.
- Smart controls minimising defects, reducing waste, facilitating operations
- All welded to pharma sanitary standards using 316/304 stainless steel
- No screws. All parts where liquids runs made with sanitary weldings

GENERAL TECHNICAL CAPABILITIES

- Auto Feed, Fill & Double-Cap and labelling for Vials and other pharmaceutical/cosmetic products
- Throughput up to 55 product/minute
- Filling tolerance of only 0.25% of volume
- Contact us for full specifications
