

Hot Glue Pre-cut Labeling Machine ZRGY-01 Series

ZRGY-01 Series rotary hot melt glue pre-cut labeler is a new machine developed independently for applying label to containers of fruit juice beverage, cosmetics, detergents, edible oil and cans. The labeler has ability of applying special long and high label and especially suit for pre-cut label of compound plastic film. With the most up-to-date system of controlling and transporting, the labeler is very accurate and reliable to stick label on containers.

Number of Heads : 6,9,12,15,18,24,30,36. Design base on the customer's requirements.

Capacity: 30,000-40,000 b/h.

Limit Capacity: 110-120%.

Pattern of Bottle: 50-120mm for cylindrical, square and rectangle.

Pattern of Label: Height is 250mm and length is 400mm.

Label Consumption: <1%.

Machine with Conveyor Belt: 1900-3200mm.

Voltage: 380±10%V 50Hz.

Air Pressure: 0.6MPa.
