Automatic High Speed Wet Glue Labeling Machine

Pack Well is Gum Labeling Machine automatically paste labels on round container of glass, plastic, aluminum, pet, cardboard container and wrap-around labels in the vertical position by using cold glue. This machine is rigid, versatile and engineered for reliability and enhance operational efficiency in addition, it has several exclusive features which offer additional advantages.

Operation:

The round containers positioned & curate spacing between two containers by the roller spacing device for wrap-around operation at the operation at the labeling point, an electronics product sensor sense container & relies a label from self adhesive label roll. If machine is equipped with batch printing device in that case batch printing device prints the batch no. & other matter on label during label is stationary means time between sensing of two label. The sensed round container moves on conveyor sticker label at labeling point wrapped around to container. Then the labeled container moves further through a rubber pressing belt & stationary rubber pad that ensures neat & perfect fixing of label.
