

Automatic Wrap Around Labeling Machine HYL-B300

Product Description

The system includes various new design features for pharmacy applications to achieve extra reliability, speed, precision, HYL-B300 is a simple wrap around labeling machine specially designed for small pharmacy bottles. on top of the simple and flexible concept of the wrap-around belt method.

Features & Specification

- Whole machine adopts windows friendly software operation interface, Record all production information and export production report.
- Can save More setup parameters, choose one parameter when need production no need to setup again.

- Can choose thermal transfer printer and CCD Camera inspection system
- Adopts servo motor and Swiss emery driver technology to ensure high precision and high speed labeling .

Technical parameters:

Labeling speed:	200 bottles/min
Labeling precision	±1 mm
Power supply	220VAC 50/60HZ. 1.5kw
Working temperature	0~50°C
Air pressure	0.4~0.6MPa
Dimension (long X width X height)mm	L 2200mm W 840mm H 1600 mm
Total weight	300KG

Why Choose US ?

1.Rich production experience

More than 9 years of production experience, strong technical force

2.Strict product standards

Every part of our products is strictly manufactured in accordance with the production specifications, through multiple professional technical testing, more than ten years of manufacturing experience, has never had customer complaints about the parts

We also have specialized technicians for the assembly and maintenance of the machines, and our after-sales service is quite perfect.

3. Our sales process

Pre-sale	On sale	After-sale
1.Determine the machine plan according to the product	Free test customer product and	1.Provide labeling machine instructions, the remote video guide.
2.Provide basic machine information	machine matching	2.One year warranty. We has after-sale team,fast on-site service
