

Automatic Cartoning Packing Machine RQ-ZH-260W

RQ-ZH-260W Automatic high speed cartoning packing machine equipped two pre-forming devices to ensure the forming effect of the carton and improve the working efficiency, and this cartoning packing machine adopts back pushing, and have 22 pusher, feeding part adopts servo motor, speed can up to 260 carton per minute.

Technical Parameters:

Model	RQ-ZH-260W
Speed	260 carton/min
Total power	5.0 KW
Power supply	220/380V 50Hz
Requirements of carton	size range of carton:L(70-180)*W(35-80)*H(14-50)mm carton weight:250-350g/m ²
Requirements of instructions	size range of instructions:L(80-250)*W(90-170)mm range of folding times of instructions:1-4 fold instructions weight:60-70g/m ²
Pressure	pressure intensity:≥0.6MPa air consumption:120-200 L/min
Overall size of machine	6800*1600*1860 mm
Net weight of machine	about 3400kg
