

Automatic Ropp Capping Machine CX-ZG

Automatic press is set on the plug, gland, out of the bottle in an ideal automation machinery, can easily with other equipment linkage realize full automation.

Automatic capping machine is mainly suitable for pharmaceutical, medical, food, chemical and other industries, is a kind of strong commonality of equipment.

Technical Parameters:

Bottle	Round/square/flat
Caps	Round type
Speed	30-50b/m
Pressing rate	≥98%
Capping rate	≥98%
Dimension	2610*1010*1610mm
Power supply	380V 50HZ
Power	1.2KW
