

## *BSM-125G Paste Cartoning Machine*

The equipment is mainly used ointment class (aluminum bottles and plastic bottles), automatic cartoning, The machine automatically complete manual folding carton forming automatically open a ointment vial automatic cartoning, the three unified completed action function, batch number can be automatically printed on the box side.

### **Main Technical Parameters:**

Item	Parameters
Run speed	40-120 cartons/min
Vacuum suction	0.6Mpa
Air consumption	5-8 liter/min
The quality of specification	55-70g/m <sup>2</sup>
The quality of carton	250-350g/m <sup>2</sup>
Specification	(60-200)x(80-160)mm
Dimension of carton	(LxWxH)(50-170)x(25-90)x(25-50)
Power supply	380V50Hz
Total supply	1-1.5kw
Dimension of equipment	1100x1120x1500
Machine weight	960kg
