

## *Liquid Packing Machine with Weighting Sealing*

Liquid packaging machines are packaging equipment for packaging liquid products, such as beverage filling machines, dairy filling machines, viscous liquid food packaging machines, liquid cleaning products and personal care packaging machines, etc., all belong to the category of liquid packaging machines.

Suitable for liquids such as soy sauce, vinegar, juice, milk, etc., using 0.08mm polyethylene film, its forming, bag making, quantitative filling, ink printing, sealing and cutting processes are all automatically performed.

### **Technical Parameters:**

Operating Voltage	220V/50HZ;110V/60HZ
Rated power	360W
Packing speed	15-25 pcs/min (customizable)
Weighing range	3-120 ml (customizable)
Tolerance scope	about 1ml (customizable)
Body material	Quality food grade stainless steel
Physical dimension	45*48*155cm
Total Weight	50kg
