

Automatic Cellophane Wrapping Machine SF-300

The cellophane wrapping machine is widely applied in the single piece transparent film automatic packaging of all varieties of box-type things in the industries of pharmacy, food, healthy products, cosmetics, commodities, stationary and office supplies poker and cigarettes etc.

Application:

The cellophane wrapping machine is widely applied in the single piece transparent film automatic packaging of all varieties of box-type things in the industries of pharmacy, food, healthy products, cosmetics, commodities, stationary and office supplies poker and cigarettes etc. It has the removing and sealing easy-pull line stuck in the finished packaging products, and with the functions of “three preventions and three enhancements”, that is anti-falsification, moisture proof and dustproof; enhance the product level, enhance the additional value of the product and enhance the additional value of the product and enhance the decoration quality of product appearance. The machine can be connected with cartoning machine in line.

Features:

- 1) Compact and reasonable structure, stable and advanced performance, simple and convenient operation and maintenance.
- 2) Multifunctional digital display inverter, stepless variable speed.
- 3) With automatic feeding, automatic counting and other functions.
- 4) The transmission part is equipped with various protective devices and fault tips.
- 5) No waste of packing material for film delivery clutch of test machine.

Specification:

Packing speed	30-80 boxes / minute
Product Length	50-240mm
Product Width	15-100mm
Product Height	10-60mm
Machine Size	2000*790*1550mm
Machine Weight	750kg
Power	4.5kw
Voltage	220v(50hz)
Packaging material	BOPP smoke film / anti-counterfeit gold wire
