

HW-SCT100 Auto Cartoning Machine

HW-SCT100 adopt encoder to control each procedure which make machine to adjust easily and digitization, it is far better than another competitor who use camshaft with micro switch. PLC+HMI control system which provide friendly operating environment and show diversity information Carton size is bigger than another competitor, 90*70*200mm. Adopt mechanical digital position indicator for adjusting conveniently, Instead of ordinary ruler. Height of machine is optimum than another competitor, it make worker more comfortable for long operating time.

Features

- PLC+HMI control system which provide friendly operating environment and show diversity information
- Carton size is bigger than another competitor, 90*70*200mm.
- Adopt mechanical digital position indicator for adjusting conveniently, Instead of ordinary ruler.
- Height of machine is optimum than another competitor, it make worker more comfortable for long operating time.
- HW-SCT100 adopt encoder to control each procedure which make machine to adjust easily and digitization, it is far better than another competitor who use camshaft with micro switch.
- Capacity is 20-50 cartoners depend on cartoner size.
- Precise index for 12 working station make machine durable and accuracy
- Equip Lot number printer (Carbon foil hot printing) (optional).
- Equip Leaflet insertion device (optional).
- Equip automatic filling device, such as bottle, cosmetic, tooth past, hardware,.....etc.(optional)
- Equip torque limiter to protect human and machine structure.
- Quick mold change structure without tool is patent applying.
- Appearance of machine is made by aluminum and SUS.

Technical Data

- Carton Size (Maximum) : 90*65*200mm or 80*80*200mm
- Carton Size (minimum) : 20*20*60mm
- Power Supply : AC 220V, Single Phase, 50/60Hz, 1000W
- Air Consumption : 6kg/cm², 170ltrs/min
- NET. Weight : 350kg (with conveyor)
- Dimension : 1470(L)*940(W)*1640(H)mm
