

## ZKSS-150/300/700 Vacuum Feeder

The product can remove material static, transmit the power no-leakage, is beneficial for the environment cleaning, resolve the power delaminate problem completely, programmable automatic control, easy and convenient for operator. Low cost, low noise, no vibration, the running cost is low, easy for installation, unloading and cleaning. Main parts adopt the foreign famous brand, applied to the feeding and transmitting of pharmaceutical machine, fully meet with GMP requirements.

### Main Technical Data

| Model                     | ZKSS-150   | ZKSS-300   | ZKSS-700   |
|---------------------------|------------|------------|------------|
| Max feeding ability(kg/h) | 150        | 300        | 700        |
| Compressed air pressure   | 0.4-0.6MPa | 0.4-0.6MPa | 0.4-0.6MPa |
| Max air Exhaustion        | 180Liter/m | 360Liter/m | 720Liter/m |
| Max loading height        | 10m        | 10m        | 12m        |
| Max vacuum                | 92kpa      | 92kpa      | 92kpa      |
| Idle load noise dB(A)     | <60dB(A)   | <60dB(A)   | <65dB(A)   |
| Size L×W×H (mm)           | φ170×580   | φ245×720   | φ360×850   |
| Weight (kg)               | 12         | 14.5       | 16.5       |
