

Automatic Horizontal Shrinkable Label Inserting Machine XYH-250

Description:

- Automatic Horizontal Shrinkable Label Inserting Machine position design by un-stand products. Product dimension from minimum 7mm to maximum 20mm.
- Automatic Horizontal Shrinkable Label Inserting Machine constructed by stainless steel. Comply with safety regulation. Simplex machine structure ensures convenient installation.
- Automatic Horizontal Shrinkable Label Inserting Machine with modular design for quick changeover.
- Automatic Horizontal Shrinkable Label Inserting Machine with interface touch controller for use-friendly operation.
- High-accuracy rotation position system. Inserting label exactness is up to 5/10000.
- Special cutter set design. Size of the diameter of the products in the specification. Do not need to change the knife.
- Axles control design as principle and follows the mode automatically to reach the high speed accurately.
- Add optional equipment according to the customer's demand of the packing.

Specification:

Model	XYH-250
Power source	3P/220V~415V
Production rate	250 BPM (label length 100mm)
Range of bottle diameter	Ø7 ~ Ø20
Label insertion length	30mm ~ 200mm
Range of label thickness	0.05mm ~ 0.08mm
Material	PVC, PET, OPS
Main motor	6KW
Machine dimension (L×W×H)	1850 × 900 × 1750mm
