

Nail Polish Filling Machine

This filling and capping machine is used in cosmetics industry, and glue industry, such as nail polish, gel polish, glue, super glue. Our machine uses exclusive mechanical hand and the leading system to ensure the cap sit in the right position and realize a full automation.

Features:

1. This filling and capping machine is suitable for nail polish.
2. The tank is full sealing; Using vacuum pump to suck material.
3. In constant voltage condition, the machine has stable performance.
4. Bottle sorting, cap sorting, filling and capping automatically.
5. PLC controlled with touch screen operation.
6. The machine is made of stainless steel material, Meet GMP requirement.
7. Using quick-change clamps and connectors for easy cleaning.

Parameters:

- Filling Volume : 1-15ml
- Production capacity : 5-25BPM
- Filling Precision : $\leq \pm 1\%$
- Capping rate : $\geq 99\%$
- Power supply : 220V 50HZ
- Air Supply : 0.5-0.8Mpa
- Power : 3 kw
- Weight : 380 kg
- Dimension : L1400*W900*H1600mm
