

Automatic Sleeve Shrink Labeling Machine

The machinery part adopts combination designing of modularization, and makes the machine reasonable. The height adjustment adopts motor fluctuating; it is convenient to replace the material. The special cutter head designing, make the film-rolling cut more exactly and reliably.

Overview

This machine adopts international advanced technology; cover the circle label on the pet bottle. And then hot shrinking to fix on the position which bottle body designated. This machine's structure is compact, and suitable for the production line of different direction and different height.

The machinery part adopts combination designing of modularization, and makes the machine reasonable. The height adjustment adopts motor fluctuating; it is convenient to replace the material. The special cutter head designing, make the film-rolling cut more exactly and reliably.

Technical Parameters

Diameter of suitable bottles	20-125mm
Bottle Height	15-320mm
Size of label (L*H)	50-330-40-150 mm
Suitable bottle shape	round, square, elliptical, rectangular
Labeling rate	≥99.9%
Label Length	25-200mm
Label Thickness	0.035-0.08mm
Label paper core diameter	3-10mm
Voltage & Power	220V, 2KW
Net weight	500KG
