

RXC-660S Full Automatic Plastic Bowl-Making Machine

With 4-columns structure of the machine, and has a big forming square area, It is suitable for making containers of big diameter, as bowl, container and big cup. It is a thermoforming machine through press the heated-sheet. The machine is able to make ordinary cup by 3-lines mould. The machine is controlled by PLC, servo motor used in the Sheet-Feeding Device and Pulling Device, it has running fast speed and high automatically. Material: PP PS PVC&PET

Power	90KW
Sheet	0.4-1.6mm(PP,PS,PVC,PET)
Sheet Width	500-660mm
Max.forming Square Area	600×400mm
Max.forming Depth	160mm
Capacity/speed	15-30times/min.(forming)
Air Consumption	2.5m ³ (0.6-0.7mpa)
Dimension	8000x1500x2580mm
Weight	6000kg

额定功率	90KW
适用片材	0.4-1.6mm(PP,PS,PVC,PET)
片材宽度	
最大成型面积	600×400mm
最大成型深度	160mm
生产效率	
耗气量	2.5m ³ (0.6-0.7Mpa)
外形尺寸	8000x1500x2580mm
重量	6000kg
