

## *KS-120K Automatic Triangle Bag Packaging Machine*

KS-120K is a professional triangle bag making equipment for packing granular, short - strip, sheet - shaped materials, such as puffed food, prawn cracker, peanut, popcorn, oatmeal, melon seeds.

### **Features**

1. KS-120K adopts advanced microcomputer controller and step-by-step motor to drive and control the length of bag with stable performance and accurate testing. Meanwhile, it is easy to operate.
2. Bag making, measuring, filling, sealing, cutting, counting, printing batch number and other functions can be done automatically.
3. The package of triangular shape is of beautiful and fashionable appearance for catching the customers attention at the first sight.

The working process:

Automatic detection - automatic weighed - automatic filling - automatic bagging - automatic bag sealing - date printing - automatic cutting - Finished products convey.

## Technology Parameters

- Model: KS-120K
- Volume: 5-120ml
- Bag Size: L: 40-100mm W:40-90mm
- Packing Speed: 30-60 bags/minute
- Weight: 400KG
- Dimension: 900\*700\*1700mm (L\*W\*H)
- Voltage: AC220V 50HZ
- Power: 1.5KW
- Air pressure: 5-7Mpa
- Air consumption: 0.25C/MIN
