## *SB-800W High Speed Four Side Sealing Machine*

This machine is designed on basis of multi-function pillow packing machine and is suitable for packing warm cooling gel and similar product packaging design and development of products of domestic initiation.

This machine sets the bag, pack the product, prints the batch number, four side seals, easy open, cuts off and the packing finished product transportation all completes in one time. The machine adopts man-machine interface, with about automatic correction, before and after the photoelectric version, six groups of temperature control, sealing pressure device to ensure product sealing effect.

### **Main Technical Data:**

<b>Model</b>	<b>SB800W</b>
The film width	300-500 mm
Max packaging capacity (according to its material to fix)	80-160 p/min
Length of bags	100-200 mm
Product size	Max width 200mm, max height: 20mm
Packaging height	5-40 mm
Intensity of Sealing	≥15
Total power	380v 50hz 4.8kw
Overall dimensions (L x W x H)	4600x1775x1505 mm
Weight	1000 kg
