DC-B Granule Packaging Machine

Used in food, hardware, salt, MSG, chicken, rice seeds, pesticides, fertilizers, veterinary medicine, feed premix, additives, detergent powder, and other granular, powder quantitative packaging materials.

Features:

High precision digital sensor enables precise metering moments to be achieved;

Microcomputer control system, advanced technology, easy to operate, and will be more reliable to use.

Fast vibration feeding automatic correction error, it can achieve high-precision packaging.

Double scales / four scales to work alternately, fast packing speed.

Contact with the material using high-quality stainless steel, anti-corrosion, dust-proof and easy to clean.

High compatibility, easy to use with other packaging equipment.

The model is intelligent weighing automatic quantitative packaging machine, there are double & four scales, microcomputer control.

Technical Parameters:

Model	DC - B2	DC - B4
Electronic scales quantity	Two electronic scale	Four electronic scale
Packing specification	50-5000 g	
Packing speed	1200-2000 bags/hour	1800-2500 bags/hour
Accuracy level	1.0 level	
Voltage power	AC220V 300W	AC220V 500W
Weight	100Kg	180KG
Size	600×600×1850mm	1200×600×1900mm
Container	Aluminum foil bag packing container bag, paper, plastic bags, jar, etc
