

## Flow Packaging Machine TH-250

Suitable for the solid object with regular form. Such as biscuit, bread, sweet, commodities and industrial parts and so on. The bulk cargos is put in a box and form a regular object, then to be packed.

### Features

1. Touching controller with person-machine interface, parameter enacted quickly, high speed and high efficiency
2. Adopting the tracing technology through photo electricity, with digital input and sealing and cutting position nicely.
3. Diagnosing the troublesome and indicating to give an alarm.
4. Constant-temperature adjusting, brainpower controlling and being suitable for all kinds of packaging materials.
5. Controlled by Double frequency conversion, the bag length can be cut with the enacting To finish by one step, saving time and saving film.

### Parameter Date

Model	THB-250	THB-320	THB-400
Film Width	Max 250mm	110--320mm	Max 400mm
Bag Length	65-190mm, 120-280mm	80-230mm, 100-300mm	130-320mm
Products Height	5-40mm	5-40mm	5-50mm
Roller film diameter	Max 320mm	Max 320mm	Max 320mm
Packing Speed	40-230 bag per minutes	40-280 bag per minutes	40-230 bag per minutes
Power	220v, 50hz, 2.5kw	220v, 50hz, 2.8kw	220v, 50hz, 3kw
Machine size	3800x670x1450mm	4000x900x1500mm	4100x950x1520mm
Weight	800kg	800kg	900kg
