

Auto Multi-head Sunflower Oil Filling Machine

This sunflower oil filling machine, sunflower oil filler is design and manufacturing specially for filling engine oil, lube oil, gear oil and any other types of car oil, the oil filler is an extremely flexible filler, it is capable of filling any other liquids without corrosive.

The RX-VF automatic sunflower oil filling machine is manufactured with a 304 stainless steel frame and is capable of supporting 2 to 20 fill nozzles to meet customer needs, max speed can reach 5,000bottles per hour for 5 liters bottle, it is PLC Controls, touch screen operation, 304SS or 316SS contact parts, stainless steel and anodized aluminum construction, plus many more features come standard.

Main Features

- The piston liquid filling machine was generally Driven by a servo motor which will control the stroke of the piston movement, and it is also can adapt each piston has been driven by each servo motor.
- 304 Stainless steel construction or 316ss depends on the liquid,
- The O-rings and seals can be corrosive if need
- Adapt world famous Components Brand such as Siemens, Schneider, and Panasonic
- Adapt Schneider servo motor for driving the piston stroke.

Technical Parameters

Speed	1000-6000 (b / h)
No. of Filling Nozzles	from 2 to 16 for option
Filling Range	1-10 liters / 0.1-1 liters (can be customized according to user requirements)
accuracy	$\pm \leq 0.5\%$ FS
Power Supply	220/380V

Pressure

0.5-1.0 Mpa
