

Blowing Filling Capping Machine XLBFCGS6-035

Blowing, filling and capping machine XLBFCGS6-035 is applied in the food, chemical and pharmaceutical industries to fill plastic bottles and cans.

Technical Features:

- 1: Friendly HMI with easy switch for multi-languages
- 2: Advanced reflection system by ceramic plate, heat-preservation system and heating system, preform can be heated evenly.
- 3: Unique high-pressure gas recovery system that saves more than 30% of compressed air
- 4: Ionized de-duster can be equipped to improve the cleanliness of the packaging container.
- 5: The tailored made servo stretching system can be adapted to preforms with various stretching ratio, achieving the variable speeds and high accuracy positioning.
- 6: The filling valve is designed with the tidy and safe valve body, the material quality can be fully guaranteed.

Product Details:

Type:	Filling Machine
Application:	Beverage, Chemical, Commodity, Food, Machinery & Hardware,
Packaging Type:	Barrel, Bottles,
Automatic Grade:	Full Automatic
Voltage:	220V/110V/380V
Place of Origin:	Guangzhou, China (Mainland)
Model Number:	XLBFCGS6-035
Dimension(L*W*H):	8200X2620X2430MM
Weight:	2520KG
Material:	Stainless Steel 304/316
bottle volume:	20L
Warranty:	1 Years
Processing Types:	Automatic Bottle Filling Line
