

BRIGHTWIN High Quality Chicken Broth Cube Pressing Machine Wrapping Machine

Bouillon cube production line is used to press and packing bouillon cubes, tablets, sugar cubes, green bean cake and any other solid products. We are The only one in China who can make the whole line for cubes, which includes pressing machine, wrapping machine, boxing machine and conveyor. Many companies wanted to copy our conveyor, but they failed, because they cannot copy our core technology; the cubes would be blocked without this core technology.

Overview

Bouillon cube production line. It can finish pressing, wrapping and cartoning automatically. It is applicable for various products in cubes like bouillon cube, chocolate, sugar cubes and bean paste cake etc.

1. It is designed and manufactured according to customers' different products, film and capacity etc.

Parameter:

Quantity of Punch&die(Set)	17/19/25
Max. Pressure (KN)	100
Max length (mm)	40
Max. Depth of Filling (mm)	25
Cube size(mm)	Customized
Rotate Speed (r/min)	20
Production Capacity (pc/m)	600-1000
Electric power source(V/Hz)	380/50
Power (KW)	4
Outside Measurement (mm)	600*960*1750
Weight (Kilogram)	2300
